

SAFETY DATA SHEET FOR

Dead Sea Mud Masque

Section 1 - Identification of the Product

MJ DEAD SEA MUD MASQUE

1.1 - Identification of the Substance/Preparation

UPC: 0 83800 00279 5

Commercial Name: Dead Sea Mud Masque

Other Identification: MJ226

1.2 - Use of Substance/Preparation

Face Mask
cosmetic
Cosmetic Face Mask

1.3 - Company Identification

Supplier within the Community

Montagne Jeunesse
Eco-Factory
Off Valley Way
Swansea Enterprise Park
Llansamlet
Swansea
SA6 8PQ

Contact within Relevant Member State(s)

Tel 01792 310306
Fax 01792 310305

1.4 - Emergency Telephone

Company: 01403 220526

Relevant Authorities:

IN THE UNITED STATES, DISTRIBUTED BY
NEOTERIC COSMETICS, INC.
COLORADO PRODUCT CONCEPTS, INC.
303.373.4860

Section 2. Composition/Information on Ingredients

Substances Present	CAS No	EINECS No	R No	Concentration
Alcohol Denat	64-17-5	200-578-6	R11	1-5%

Section 3. Hazards Identification

- Safety:** Not classified as flammable, explosive or oxidising.
Unclassified
- Human:** If ingested may cause some irritation to the mouth and upper digestive tract.
May cause slight eye irritation.
May cause slight skin irritation.
Unlikely to cause damage to internal organs following skin contact.
It is unlikely that inhalation will be a route of exposure.
- Ecological:** Biodegradability under review.
Inorganic clay and some polymeric materials. Normal use will involve washing to waste water.
Not expected to have adverse effects on waste water treatment plant.
Not classified as dangerous to the environment

Section 4 - First Aid Measures

Ingestion:	In cases of ingestion, wash out the mouth with water.
Skin:	In cases of skin contact, wash the skin with soap and water.
Eye:	In cases of eye contact, wash out the eye thoroughly with plenty of clean water.
Inhalation:	Inhalation an unlikely event with this product.
Special Measures:	No Special Measures Identified

Section 5 - Fire-Fighting Measures

Fumes containing carbon dioxide, carbon monoxide and oxides of nitrogen may be formed in large fires.
Put out any fire with powder, foam, sand or water spray. Product is unlikely to support combustion as largely inorganic based.

Avoid using large quantities of water.

In case of fire, self contained breathing apparatus must be worn.

Section 6 - Accidental Release Measures

Contain and collect spillage.

Absorb on to sand/kieselguhr or other inert material.

Failure to contain a release must be notified to both the local authority and Montagne Jeunesse

Wear impervious gloves/overalls and eye protection while clearing up the spillage.

Do not wash into the drains.

Place in plastics barrels for disposal.

Do not mix with other waste materials.

Dispose of in accordance with State and local authority regulations.

Seek advice from the local waste authority or seek guidance from Montagne Jeunesse

See also Sections 8 & 13

Section 7 - Handling & Storage

7.1 - Handling

No specific handling conditions, other than those applied as best practice.

7.2 - Storage

Do not store close to strong oxidising agents which could aggravate any fire situation.

No special storage considerations

Store in the containers, as supplied, at between 5 and 40 degrees Centigrade.

7.3 - Specific Uses

Face Mask

cosmetic

Cosmetic face mask

Section 8 - Exposure Controls / Personal Protection

8.1 - Exposure Limit Values

Denatured ethanol 8 hr TWA 1920 mg/m³ EH40/99

8.2 - Exposure Controls

Avoid contact with eyes, skin or clothes.

Working procedures should be designed to minimise worker exposure to this product. Where this is not possible the following personal protective equipment should be provided.

Respiratory protection: Not required.

Hand protection: Impervious gloves recommended.

Eye protection: Not required.

Skin protection: Protective overalls and shoes/boots recommended

All personal protective equipment must comply with the appropriate EEC (CE) standards and should be maintained and stored to ensure continued suitability for use. Workers should be trained in the effective use and maintenance of the personal protective equipment provided.

Section 9 - General Information

9.1 - General Information

Appearance: Clay like mud

Odour: Perfumed

9.2 - Important Health, Safety & Environmental Information

pH:	not known	Relative Density:	not known
Boiling Point:	not known	Water Solubility:	not known
Flash Point:	not known	Fat Solubility:	not known
Flammability:	not known	Partition Coefficient:	not known
Explosive Properties:	not known	Viscosity:	not known
Oxidising Properties:	not known	Vapour Density:	not known
Vapour Pressure:	not known	Evaporation Rate:	not known

9.3 - Other Information

Section 10 - Stability & Reactivity

10.1 - Conditions to Avoid

10.2 - Materials to Avoid

None Identified

10.3 - Hazardous Decomposition Products

Not expected to decompose under normal conditions of use and storage

Section 11 - Toxicological Information

LD50 (oral rat) > 2000mg/kg

Not classified as "Harmful if swallowed" May cause minimal effects following ingestion.

Prolonged contact may cause slight skin irritation.

Contains low concentrations of one or more allergens. People who are already sensitive to these materials may react adversely to this product.

May cause slight eye irritation.

Section 12 - Ecological Information

12.1 - Ecotoxicity

Do not release into surface waters.

Inorganic clay and some polymeric materials. Normal use will involve washing to waste water. Not expected to have adverse effects on waste water treatment plant.

12.2 - Mobility

Substances Present	Surface Tension	Predicted Environmental Distribution (%)					
		Air	Aersol	Soil	Water	Fish(Biota)	Sediment
Alcohol Denat		3.37643663	6.0782E-08	.040938543	96.5816843	2.3113E-06	.000909745

Note: Mobility values are estimates calculated by a Fugacity Modelling Database developed for Filemaker by R.M. Boughton & C.I. Bolton, PSA Ltd and are given as guidance only. The database is based on EQC Software & Research by Dr. Mackay et al. Trent University (2002). It is not possible to predict the distribution of inorganic compounds using such a system, nor to ensure 100% accuracy of the system due to the complex nature of the distribution of some compounds within the environment.

12.3 - Persistence & Degradability

Under review.

12.4 - Bioaccumulative Potential

Substances Present	K_{ow}
Alcohol Denat	.478630092

12.5 - Other Adverse Effects

See also Sections 6, 7, 13, 14 & 15

Section 13 - Disposal Considerations

When disposing of waste or surplus material avoid contact with the eye and skin. Wear impervious gloves/overalls and chemical safety goggles.

Do not wash into the drains.

Do not mix with other waste materials.

Seek advice from the local waste authority or seek advice from Montagne Jeunesse

No special disposal considerations. If bulk product is spilled, collect and dispose of to landfill, do not wash to drains.

Section 14 - Transport Information

Not classified as "Hazardous for Transport".

Section 15 - Regulatory Information

This substance has been assessed using the health, safety and environmental criteria laid down in the EEC Directives on the Control of Dangerous Substances and Preparations. It is found not to be classified according to the health and safety or environmental criteria.

**USE ONLY AS DIRECTED.
KEEP AWAY FROM CHILDREN.
WASH HANDS AFTER USE.**

"Warning" Do not use with other products. May release dangerous gases (chlorine).

Section 16 - Other Information

This safety data sheet takes into account the enactment of Council Directive 67/548, and its amendments/adaptations. This safety data sheet is accurate to the best of our knowledge and is based on information which we consider is reliable. It is furnished without warranty.
